Priced Right!

Better Meat for a Better World.

Vermont Raised. All Natural Beef. Sustainably Farmed.
Antibiotic Free. Hormone Free.

At Black River Produce we believe you shouldn't have to guess where your food comes from and how it comes to you. In 2005, we launched Black River Meats with a strong belief in the potential of connecting small farms throughout Vermont and our neighboring states, with the ready-market of discerning, conscientious consumers — consumers who want quality meat from farms that prioritize the well-being of their animals, and the well-being of our greater world, in a way that larger commodity factory farms largely do not.

Our farmers follow stringent quality standards to ensure the consistent quality that our customers seek, while not sacrificing our commitment to the well-being of the animals on which we depend.

In short, we believe in better meat, for a better world.
