## IMPROVED ORDER SYSTEM

If you haven't yet signed up for online ordering, now is the time. The new and improved CustomerFirst system helps you minimize waste with powerful, easy-to-use inventory and recipe costing tools. Our recipe builder even allows you to include competitive items to calculate the most accurate plate cost possible.

Just ask your BRP rep to give you access today. Save time. Save money. Best of all, input your orders when it is most convenient for you, 24 x 7.

## SUMMER SCHOOL CLOSINGS

Juggling more than 9,000 items from tiny farms and small producers can be quite the challenge. You can help support our small farms by letting your BRP representative know the date your school will be closing for the summer.

By communicating your summer closing date, we can help vendors adjust their production accordingly.

Thank you for your assistance.
